

Internet Privacy and Usage Policy

Purpose

The purpose of our web site is for information regarding our organization. We will not permit the use of this site for any other purposes. We will take corrective actions towards any information on this site we feel does not meet our standards. This includes any posts in our Guest Book, Mailing List Submissions, Events, Links, etc...

Guest Book Postings

The posting of information in our Guest Book is a privilege. We may at our discretion decide not to make public any posting for any reason. This is not a practice we exercise except in cases of inappropriate language or topics. Should we deem it necessary we may attempt to validate the person's identity and comments using the e-mail address submitted at time of the Guest Book submission. If we decide to exercise this option and the persons identity is not able to be validated we will remove any entries entered by that individual. In extreme cases we reserve the right to contact the appropriate authorities and submit information submitted by the user and collected during the submission process as part of a criminal investigation.

E-Mail Lists

We reserve the right to review, approve or deny any requests for addition to our e-mail listed. We also reserve the right to remove person or persons from our E-Mail listing at any time for any reason with or without prior notice to the individual or entity. We will provide a means via our web site for mailing list requests for additions and removals. We will include in all mailings instructions regarding the removal from our mailing list and will process removal requests as quickly as possible.

No SPAM

We understand the issues regarding spam and the proliferation of spam that is affecting everyone. We only use our mailing lists only for our own purposes. We will never disclose, sell, distribute, or publicize your name or e-mail address to anyone without your permission. We will include in all mailing instructions regarding the removal from our mailing list and will process removal requests as quickly as possible.
